Extending cot and organic mattress

Converts into a full length bed.

	Pine	Colour*	Beech
Cot/bed (Frame only)	£285	£325	£450
Cot/bed and Organic mattress	£395	£435	£560

Organic mattress (2'6" x 4') £110

Organic mattress for British Standard Cot (23" x 47") £110

Our 2'6" x 4' fixed sided cot can be supplied with a set of 5', 5'6" or 6'3" side rails (available at £30) so that it can be converted later into a single or child size bed. These can be purchased at a later date. (mattress not included).

The 2'6" x 4' cot mattress is made using only natural materials. A coir/latex pad is covered with **organic** lambswool and topped with an **organic** cotton cover. The combination of lambswool and cotton allows this mattress to conform to BS7177 (fire safety regs) without chemical treatment.

Storage box (approx 4' x 2' x 8")	Pine	Colour	Beech
	£55	£65	£80

* **Some colour finishes are not suitable for cots - check with sales personnel**

Colour stained frame + embossed covers £788 (+mattress/bolster set/ 1 small, 1 med. and 1 large cushion)

Mattresses

Here are some brief notes to guide you around the **alphabeds** range. More details can be obtained from the sales staff; by calling the office on 01559 395 428 or by looking on the website at www.alphabeds.co.uk.

Mattresses as well as bedframes can be made to non-standard sizes.

All mattresses are individually made and hand tufted.

All mattresses consist of a **core** with one or more layers of **fillings** and an outer **cover**

Core types

Open Spring : Traditional mattress interior made with around 300 (4'6" x 6'3") hourglass shaped springs.

Pocket Spring: High quality mattress interior with over 1000 springs (5'x6'6") each in its own cloth bag or pocket.

Solid Core: Latex (Natural rubber-No polyurethanes used) or latex/coir matrix. An all natural alternative to springs.

Futon Style: Made from layers of cotton and wool

Fillings

Cotton: Exactly like cotton wool but made from heavier fibres for longer life. 'Needled' cotton is compressed and strong, 'layered' cotton is light and fluffy. (Cotton can contain a small amount of man-made fibre for binding purposes)

Polyester: Very warm and springy man made fibre. Long lasting and lightweight.

Pure New Wool: The words 'Pure New Wool' must be used to describe the filling used by **alphabeds**. The wool used by **alphabeds** is 100% Pure and New.

Cover

All **alphabeds** mattress covers are 100% cotton . **Tenby** and **Brecon** mattresses have a traditional black and white stripe pattern (with fire retardant)

All other mattresses have a heavyweight herringbone weave Natural Cotton cover. This is a natural shade fabric, woven to **alphabeds** specifications.

Tufting

The best quality mattresses are always tufted: a tuft is a woven tape with a soft button at each end. This passes through the mattress and locks the layers of fillings together. **Alphabeds** mattresses are hand tufted for long life and stability.

Firmness

Firmness of mattresses is very much a matter of personal choice.

Alphabeds mattresses are available in two or three grades of firmness, depending on core type. For advice on firmness, speak to a salesperson– but the best way to decide is to try them yourself in our showroom: don't be shy: take your time, there's no rush.

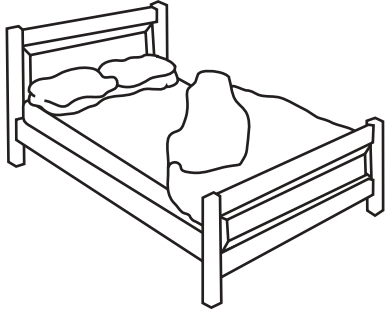

Chemical Fire Retardants

Due to the thick layer of pure wool and the heavyweight cover, mattresses marked * have no added fire retardant chemicals.

All mattresses conform to BS7177 Fire Safety Standard.

Name	Core Type	Firmness	Filings	Cover	3' x 6'3"	3'6" x 6'3"	4'0" x 6'3"	4'6" x 6'3"	5'0" x 6'6"	5'6" x 6'6"	6'0" x 6'6"	Comment

alphabeds

alphabeds has always had an environmentally minded outlook. We have for several years incorporated alternative energy in our workshop using water power, bio-mass and combined heat and power techniques for energy saving and efficiency.

We were and are the only makers of a full range of mattresses to offer the choice of all natural materials with no added Fire Retardant chemicals (which still pass the legal requirements without any special certification needed by the customer).

We can now offer mattresses made with **latex, coir** and **natural unbleached cotton covers**.
